**Biography**

I was born on May 5, 2021, after a 73-year gestation, during which I changed cars 104 times.

On that May 5th, 2021, I discovered it was the bicentenary of the death of Napoleon I, and that everything in life was a "BIDONE."

To lift my spirits, from then on, I devoted myself to the study and exaltation of the BIDONE, and I changed cars 14 more times.
